among them are PhDs and D.Sc.

Quarter of participants return to the SECR
at least 2 times in 3 years

What SECR can bring to your company

Recruiting, search for specialists, HR-brand development;

Search and recruitment of highly qualified specialists is a big issue for many IT companies. SECR – is an excellent opportunity to introduce your company at 1 time to a wide audience of professionals in various IT- fields and specializations, united by active interest for their work and professional development..

At one event SECR gathers top programmers, managers, testers, UX-specialists, analysts, professionals in solving rare problems, best students and many others.

Participating as a partner, you get the opportunity to communicate with the audience on behalf of the company, collect contacts, announce open vacancies and look for potential employees and partners.

In addition, the fact of support and the possibility of participation in SECR for employees, develops the HR-brand of the company among industry experts.

Image and status.

SECR is the landmark and exclusive event. The SECR sponsor status strengthens your image and position as the market leader, demonstrates company's involvement in the development of the industry and develops the brand of the company as a whole.

Want to know more about SECR?

Conference mission

The development of Russian IT industry by providing a unique platform for:

- exchange of experience;
- presentation of scientific research;
- introduction of IT sphere into business;
- communication between representatives of different IT specialties;
- stimulating the development of quality solutions for the problems of IT field.

Conference Positioning

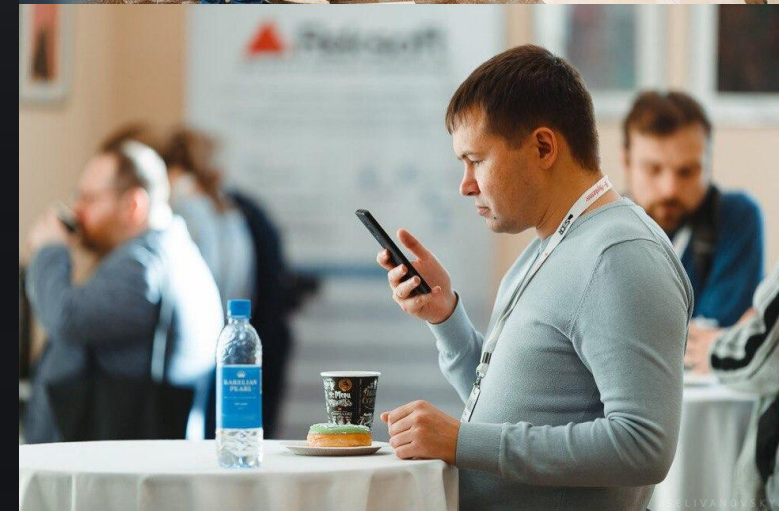

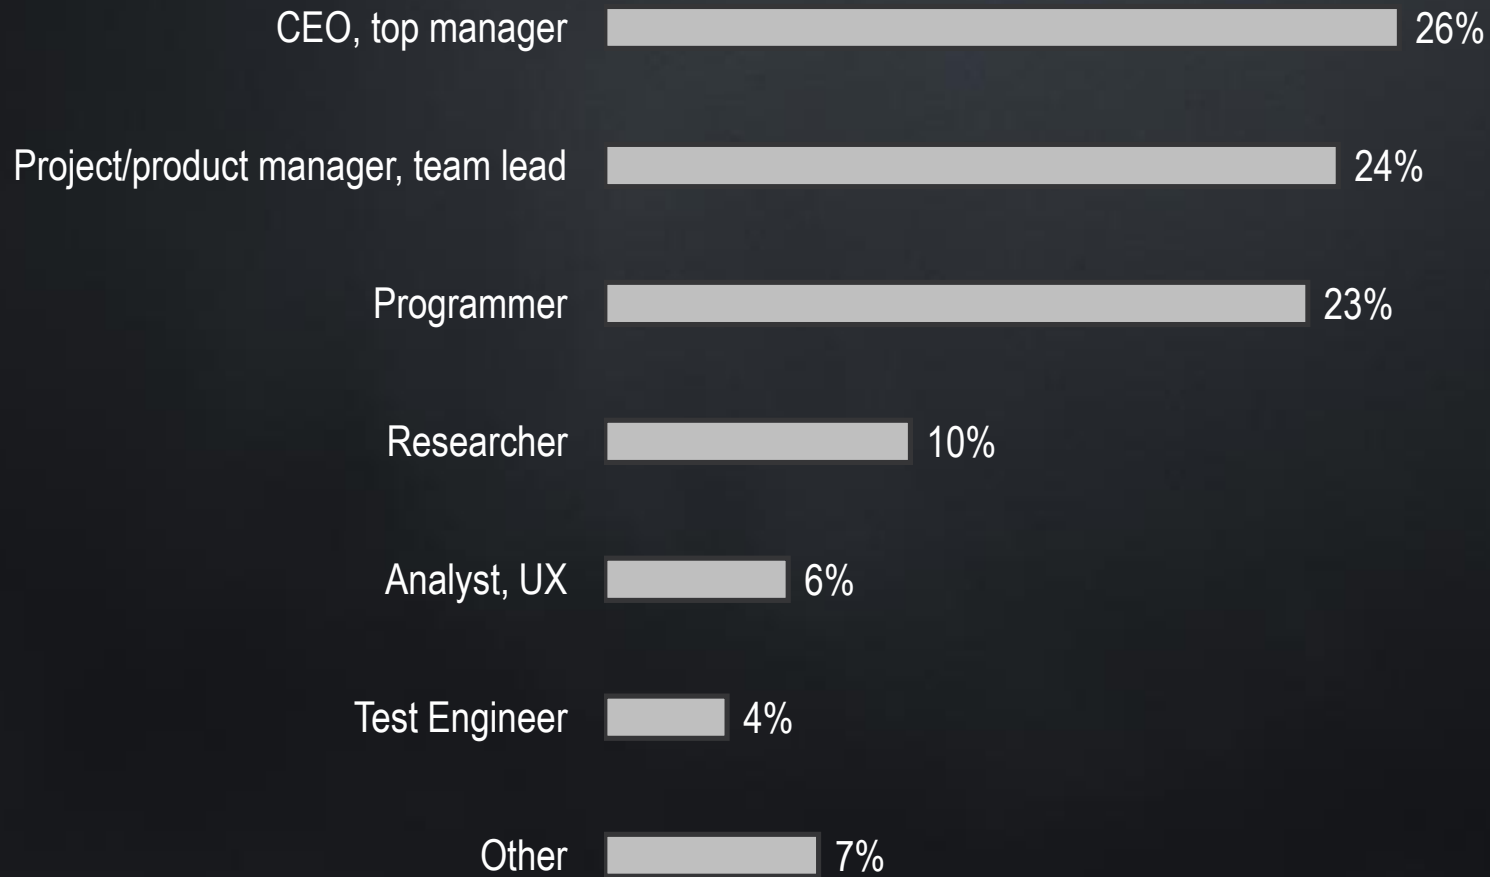

“SECR is the place where you should be”

The conference is positioned, as “must-attend”, and exclusive event for professionals. It gathers experienced specialists who are interested in both: industry, as a whole and development in areas, close to their main specialization.

SECR is a landmark, prestigious event. You can see it in the high quality of reports, strict selection of speakers, worthy organization, and in what kind of people come to the conference.

Audience 2015-2017

Geography 2015-2017

Moscow  41%

Saint-Petersburg  38%

Other city  17%

Other country  5%

The big history of SECR

2005 -2010

In 2005 the first SECR conference was held in Moscow. The event was aimed to gather around it all Russian IT community and international experts.

The first conference venues were "Infospace" and the cultural center of the Higher School of Economics.

2009 -2011

"SECR: Banks" was held as a separate day of the conference program.

Now the topic "Software development for the financial sector" is included in the main themes list.

2011-2016

SECR moves to one of the largest and modern venues in Moscow - Digital October.

The conference program is gradually expanding to 3, and then 5 simultaneous streams of reports.

In 2012 the Bertrand Meyer Award was established. It is annually awarded to the best research articles in the field of Software Engineering

Since 2015 the classic themes of the conference and topical trend issues of the industry are divided into 2 separate blocks.

Every year SECR gathers from 600 to 800 participants.

2017

For the first time SECR was held in St. Petersburg

These 13 years SECR was supported by the industry leaders:
